

Press Release for Bruton

Youth Work in Jubilee Park Thursdays 5-7 pm

The sessions are working well. We are currently in the top corner of Jubilee Park. Young people are attending and engaging in activities. This project is aimed at year 7 secondary school age young people up to and including 19 years of age.

The team continues to use the mobile youth bus as the delivery point. This has worked well with sessions. We have mainly focused on being active due to the light and warm evening. The young people are well-engaged in tennis, football, power kite flying, and rounders. We still have plenty of space for any young people who wish to attend the sessions. Please pop along and say hello to Penny and Carly.

We are hoping to move into a building for the winter months where we will be delivering lots of new activities including cooking, arts and crafts along with more issue based work to meet the needs of the young people attending.
