

Bruton Annual Town Forum 2026

The Bruton Trust:

The committee of the Trust regularly review and comment on such planning applications as are considered important in some way in maintaining the architectural merit and diversity of the town.

The historic conservation area of the town is its particular responsibility.

We also maintain the butterfly bunds on land south of Abbey Ponds, adjacent to the allotments, and support Council works on the Ponds themselves.

Anyone who would like to join us as a member, or perhaps to serve on the committee, should make contact with me by leaving details with reception at the council Office or in its post box.

Ed Tickner
